FLAVOUR
GUIDE

Fruit Flavours

Apple: A sweet, not so sour true apple flavour. Great on its own or best when mixed with other lightfruits to truly enhance your recipe!

Apricot is a versatile base flavor to keep in your vape inventory. Mix it with nut, spice, and fruit flavors, or use it as a "topping" on dessert flavored eliquid.

Aurora: Sparkling and spirited as the the sunrise warming distant flowers and fruits, refreshing. We suggest using 2-3%

Banana: This flavor is just as versatile in the kitchen as it is in your eliquid formula. Vape Banana by itself, or add it to your own unique eliquid recipe. Complements fruit, nut, and dessert flavors. Has a definite true, ripe banana flavour with a touch of sweetness on the finish.

Bilberry will add a sweet and tart berry flavor to your vineyard. In the same family as the blueberry, this Bilberry flavor is great alone or as an addition to your favorite cocktail, fruit, or dessert eliquid recipes.

Black Cherry brings a sweet and cherry berry flavor to your vineyard. With more robust and ripe notes than our regular cherry, Black Cherry is great with other fruits or even as a sweet undertone in your favourite tobacco.

Blackberry: An absolutely unique blackberry flavour. With its slight sweetness mixed with a tart finish, add some blackberry to your favourite fruit recipes or add it subtly to a tobacco eliquid for a truly definitive vape.

Blackcurrant: The refreshing tart flavor of Blackcurrant is great alone in a flavorful berry eliquid recipe, or as an addition to your favorite dessert, tobacco, and fruit cocktail eliquids.

Blood Orange

A bright, fresh true to life blood orange flavour! Beautiful citrus married with the sweetness of blood orange finished with a faint hint of the zest of the peel.

Cherry: Bring the traditional sweet and tangy flavor of cherry to your eliquid mix. Sure to fit any palette, Cherry flavor complements fruit, dessert, cola, and tobacco flavored eliquid mixes.

Citrus Mix: A mix of Lemon, Lime, Orange, and Grapefruit flavors, use this flavor to add some refreshing zest to your eliquid recipe, or vape it by itself for its unique blend than keeps you guessing. Perfect in combination with other fruit flavors, with cola, or to add zest to your yogurt.

Coconut is thick and rich in flavor with a unique hint of sweetness. Vape this unique flavor on its own, or include it in your own unique eliquid recipe for a taste of the tropics. Coconut tastes great when combined with bread, coffee, dessert, and liquor flavors (especially rum!).

Concord Grape: Add the sweet and juicy flavor of Concord Grape to your eliquid mixture. Combines the acidic taste of the grape skin with the floral notes of the fresh fruit.

Cucumber: With the juicy and fresh flavor of cucumber, you can add a subtle hint of flavor and a refreshing feel to any eliquid mixture. Cucumber is great to use in combination with herb flavors in your unique recipe, or to soften some tobacco flavors and make them feel less harsh. You might not think it, but it's pretty good with a dash of mint, too.

Florida Key Lime

Designed to replicate the famous taste of a fresh Florida Key Lime. Citrus zest notes with finishes of sour and sweet.

Forest Fruit: A combined blend of the sweet and often tart flavors of many ripe berries, by itself, Forest Fruit gives you a rich and mysterious vaping experience.

Fresh Fig: Sweet, juicy, and delicious! Use the fresh fig flavor by itself or as part of your favorite eliquid recipe to give your vaping the feel of the Middle East. Try mixing it with other Mediterranean fruit and spice flavors, or with dark and smoky tobacco flavors.

Fuji Apple: Vaping one of the sweetest apples on the planet is what this flavor is all about. Delicious, crisp and sweet with a touch of tartness, Fuji Apple is a great addition to a variety of recipes and great by itself.

Grapefruit (Semi-sweet) with sour and tangy undertones, this citrus flavor tastes great by itself or as an essential part of your own unique fruit eliquid recipe. Grapefruit flavor complements citrus, cream, fruit, and dessert flavors.

Guava: is a sweet fruity flavor with tangy undertones, something like a blend of kiwi and strawberry flavors. Although the exotic flavor of Guava tastes great by itself, it adds an air of mystery and charm to dessert, fruit, and soda flavors in a eliquid recipe.

Kiwi is a sweet and tangy flavor that will add a dramatic tropical pizzazz to any eliquid recipe. Although it tastes great by itself, Kiwi mixes very well with sweet fruit flavors, florals, and desserts.

Lemon Sicily: Bring the tangy, zesty, slightly sweet flavor of Sicilian Lemons to your eliquid recipe, or use it by itself for its own refreshing flavor. Lemon Sicily accentuates the strong overtones of some fruit flavors, complements soda, and tastes amazing with desserts. Or, try it with other citrus flavors in your own personal blend.

Lime Tahiti: A tangy citrus Lime flavor, but with a unique fragrant and spicy aroma, use Lime Tahiti to add some zest to your regular vape flavor, or as part of a unique eliquid recipe to complement fruit, citrus, and dessert flavors. Lime Tahiti mixes very well with rum.

Lime Cold Pressed: Add the tangy and zesty citrus flavor of cold pressed Lime to your eliquid mixture, or use it by itself for a unique vaping experience. Compliments fruit, citrus, and dessert flavors, and goes very well with cola and some liquor flavors, too. Lychee: A truly exotic flavour Lychee is a sweet fruit, so it blends well with everything from desserts to beverages (and fruit mixes, of course) and will be a great addition to your eliquid flavor kit.

Mad Fruit: Formerly called Red Energy, Mad Fruit offers an energetic mix of sweet fruit flavors. Mad Fruit tastes great by itself, and also when you include it in a cola or liquor eliquid recipe for its unexpected and unpredictable fruity twist!

Mandarin: A sweet citrus flavor without the usual tartness, Mandarin tastes great on its own. It tastes even better in a eliquid recipe when it is used to complement fruit, citrus, soda, chocolate, and rum flavors, or to add some sweetness to the bouquet of your favorite floral aroma.

Mango is a juicy and refreshing sweet flavor that tastes great on its own (after all, it *is* a symbol of perfection!). An absolutely real mango flavour that combines the tropical ripeness and full bodied taste of this most tropical of flavours. Mixed with fruit, citrus, and liquor flavors, mango is sure to provide an exotic feel to any eliquid recipe.

Mangosteen: The sweet and tangy, yet juicy and ever so slightly bitter flavor of the Mangosteen is an ideal complement to any eliquid recipe involving fruit, citrus, dessert, cola, or liquor flavors. However, its unique taste is still so uncommon that it's worth trying on its own, first. We predict this rare flavor will soon become essential to any true fruit connoisseur's repertoire.

Melon Cantaloupe: The watery and sweet flavor of Cantaloupe tastes great when vaped by itself. In your own unique recipe, Melon Cantaloupe complements marshmallow, sweet fruit, cream, liquor, and floral flavors. This is a very versatile flavor, perfect for experiments where all you're missing is the taste of the tropics.

Morning Sun: A milky flavour carefully blended with the sweetness of freshly cut fruit ... the perfect continental all day breakfast! We suggest using 2-3%

Orange: Straight from your favorite breakfast to your vaping eliquid palette, the sweet and sticky taste of orange is good on its own, or in combination with fruit, floral, cola, chocolate and dessert flavors in a unique eliquid recipe.

Papaya: A sweet tasting fruit with aromatic undertones, Papaya's flavor by itself tends to be fairly subtle. Try mixing it in a fruit recipe, or let your citrus flavoring accentuate this delectable flavor. A taste of the tropics unlike any other, you can even make an island blend with pineapple, melon cantaloupe, and vanilla flavored eliquid flavors.

Passion Fruit: Because Passion Fruit is one of the sweetest available fruit tastes, it is well worth vaping on its own before you start experimenting. In a mix, Passion Fruit will accentuate fruit and citrus flavors, especially those of other tropical fruits, like pineapple and papaya. Provides a great complement to cola and cream flavors. Once you get used to the unique flavor of Passion Fruit, it is sure to become a staple in your fruit grove, so be sure to keep yourself stocked up!

Peach: The sweet and juicy flavor of peach is an ideal starting point for fruit lovers, partially because it tastes great by itself, and partially because it combines well with nearly anything. In your own unique eliquid recipe, Peach complements cream, fruit, citrus, floral and dessert flavors, and it provides a refreshing and delightful after taste to cola.

Pear: Add a touch of fruit flavor to your vaping experience without the risk of getting overwhelmed. The refreshing and light sweet taste of Pear is flavorful on its own, but even better when combined with cream, fruit, citrus, dessert, soda, and some floral flavors. Pear by FlavourArt will keep your eliquid mixture juicy all day long.

Pineapple: A delicious tropical flavor known the world over, the sweet and tart taste of Pineapple gives your vaping experience a fruity kick when used by itself. When combined with other eliquids, Pineapple's unique flavor complements cream, fruit, citrus, and dessert flavors. For a real treat, try it with cola or rum!

Pomegranate satisfies your craving for its rich, juicy, sweet and tart flavor, but without the need to clean up any of those messy seeds! Pomegranata is surely worth trying out on its own for its unique flavor. Better yet, you can add it to your own unique eliquid recipe. We recommend using a small amount of Pomegranate in a cola or liquor mix, more in a fruit salad, with citrus or with creams, and the most with dessert flavors.

Raspberry offers a delicious not too sweet and not too tart flavor to your eliquid vaping arsenal, with just a hint of dryness. This flavor is delicious on its own for those days when you aren't sure how much sweetness you want in your fruit vape. Combined with other flavors in a eliquid recipe, Raspberry tastes delicious with cream, chocolate, soda, fruit, and dessert flavors. A must have flavor for the mixing master who wants to add flavor without adding too much sweetness.

Royal Orange

A perfectly ripe flesh of a navel orange. Balanced sweetness with great taste!

Strawberry: FlavourArt has accomplished a feat with this world renowned strawberry flavor. With a sweet, semitart berry taste, this flavor tastes good on its own, and it mixes well with other fruits, (especially kiwi and watermelon), or with cola and dessert flavors.

Summer Clouds (Fresh Fruit): Sweet yet subtle, Summer Clouds delivers the pleasant taste of fruit punch—an exquisite combination of the summer fruits we all know and love. We recommend trying this flavor by itself to get a good feel for it. Then, try mixing Summer Clouds with a hint of sweetener and other fruit flavors for a fantastic eliquid recipe.

Watermelon: Use the juicy and sweet flavor of watermelon to complement your standard vaping, or combine it with other flavors in your very own eliquid fruit salad. Watermelon can be used to complement fruit, cream, cola, and confectionery flavors, and it is a favorite flavor to mix with strawberry.

White Grape: The sweet, juicy, and refreshing flavor of White Grape tastes great on its own, or in your very own eliquid recipe, where it complements fruit, floral, dessert and cream flavors. Less robust than Concord Grape, this flavour pairs excellent with acidic fruits. White Peach: Modeled after the juicy peaches grown on Mount Etna, off the eastern coast of Sicily, FlavourArt has perfected the delicate balance between subtle, sweet, and fresh.

White Peach: Modeled after the juicy peaches grown on Mount Etna, off the eastern coast of Sicily, FlavourArt has perfected the delicate balance between subtle, sweet & fresh.

Tutti Frutti offers a blend of sweet flavors in its delicious fusion of candied fruits. Some might even call this flavor "confection perfection."

Desert / Sweets / Drinks / Nuts

Almond: With its classic aroma and "nutty" taste, almond flavoring is sure to bring out the "nut" in you. Almond tastes great by itself, but its true potential comes when you use just a little bit of this flavor to accentuate your favorite recipe. Try it with tobacco, with other nuts, with fruits, or as a "topping" on your favorite dessert flavor.

Apple Pie: For a taste of this sweet and sticky American favorite, Apple Pie is the flavor to choose, whether to vape it by itself or as part of your very own eliquid recipe. It has a slightly sweet taste with just the right mix of brown sugar and apple.

Black Tea adds a stronger tea flavor to your eliquid recipe. Strong, forward tea notes with a touch of acidic dryness, black tea is great mixed with bold fruits and tobacco.

Butterscotch adds the creamy and sweet flavor we all know and love to your favorite eliquid or vape mix. Its light presence is like a wisp of delicious toasted sugar for your recipe.

Cocoon: Our interpretation of the moment when the warm embrace of the caramel melds with the sweetness of the apple, another amazing fairground flavour. We suggest using 2-3%

Cappuccino: The perfect blend of fresh milk and espresso flavors in a truly Italian style. The energizing aroma of Cappuccino is sure to give you the feel of a morning pick me up when vaped by itself and it is equally delicious in a recipe mix with any tobacco flavors, as well as with chocolate, dessert and cream flavors.

Caramel: The sweet and sugary taste of all the treats, puddings and dessert you remember from your childhood now comes to you in a flavor that won't tire you out. Caramel flavor tastes great by itself, and will go perfectly with your next coffee, tobacco, or cream flavored eliquid. Use some with a tobacco flavor to add some familiarity and sweetness to your all day vape.

Catalan Cream: offers a delicious blend of vanilla, cream and spices, with a delicate caramel undertone. Perfect for a dessert flavored eliquid recipe and as a sweet complement to cream, spice, fruit, citrus, and sweet tobacco flavors.

Chocolate: The rich and comforting flavor of chocolate is sure to be a big part of your eliquid spice rack. This flavor is sure to enrich any of your dessert, tobacco, or soft drink eliquid recipes. For a true connoisseur, this is an essential flavor, so be sure to keep yourself stocked up!

Cocoa: Vape this classic bittersweet flavor by itself, or add the traditional flavor of cocoa to your eliquid mix. A truly luxurious tasting cocoa with soft, velvet undertones and a rich cocoa flavour.

Coffee Espresso: Ideal for the feeling of a morning jolt, or used in combination with tobacco, dessert, and soft drink flavors in your own personal eliquid recipe, the bitter taste and sumptuous aroma of Coffee Espresso is sure to keep you energized.

Cola: The traditional beverage flavor, perfect by itself, or use it as part of your own personal eliquid recipe. We recommend trying it with cherry, caramel, vanilla flavours, or using it to add some needed zing to your liquor or tobacco eliquid mixes.

Cookie: A perfect sweet flavor with subtle hints of the aroma of a bakery, add a dash of vanilla or chocolate to your recipe to have your eliquid taste like your favorite kind of cookie. Of course, it's equally delicious by itself. Cookie flavor goes surprisingly well with some citrus flavors, so don't be shy to experiment!

Custard: A sweet and savory true Italian custard with that complements vanilla, spice, and dessert flavors. Use custard by itself or in your personal eliquid recipe for a unique, but irresistible flavor.

Fresh Cream: The sweet flavor and feel of fresh cream, perfect to remind you of spring and summer. It has a very delicate and sophisticated taste that makes you crave some fresh berries to go alongside. Complements dessert, fruit, citrus, and mint flavors, and tastes excellent when spiced up with a hint of vanilla or cinnamon.

Gin: Sweet yet tart, and with a hint of juniper berries, gin offers a pleasant and zesty taste perfect for light vaping, & pleasant to mix with berry and fruit flavors for a delicious eliquid.

Green Tea: Bring the traditional flavor of this oriental beverage to your vaping experience. Green Tea is perfect to vape on its own, or mixed with spice flavors in an eliquid recipe, green tea flavor is sure to keep you feeling energized. For a bit of extra excitement, try mixing it with a dash of honey, some mint, or some jasmine. Advanced mixologists might want to try mixing it with a cream flavor to make their own "green tea ice cream" vape.

Hazelnut: Rich, smooth, and delicious, use Hazelnut by itself, or add it to your favorite recipe to even out bitterness. We recommend trying it with chocolate, tobacco, & coffee flavors.

Honey: is a sticky and sweet flavor with floral undertones that tastes great both by itself or mixed with other flavors in an eliquid recipe. A staple in any properly stocked spice cabinet, honey complements tea, coffee, tobacco & dessert flavors. You can also use it to sweeten up fruit flavors like apple and pear.

Hypnotic Mist: An herbal, sweet and fruity flavor, Hypnotic Mist is a delicious, yet hard to pin down flavor. Not too strong, and perfect for an all day vape or mixed together in your own unique eliquid recipe, you'll be sure to get hypnotized wondering what makes its taste so compelling.

Irish Cream: Tasting almost like the real thing, this sweet flavor with a unique kick is perfect for mixing with coffee, butterscotch, and some dessert flavors, or just as amazing on its own.

Jamaican Rum: This classic Caribbean flavor brings the taste of the islands to your vaping experience. Vape this eliquid by itself, or combine it in your own unique eliquid recipe. We recommend combining it with strong flavors like tobacco, cola, and desserts, or giving it undertones of coconut, cinnamon, or vanilla. For the classic sea going taste, add a hint of citrus for some zest.

Labyrinth: Sponge cake, vanilla, caramel and a host of fruity notes ... a real labyrinth of flavours to explore forever! We suggest using 2-3%

Liquid Amber: is a warm and smooth flavor with a hint of fresh fruit and a delicate sourness in the after taste. Liquid Amber tastes great by itself, or in combination with tobacco flavors. If you love margaritas, you will love vaping this flavor, and you can include it in your recipe to complement citrus, fruit, & floral flavors.

Maple Syrup: Add the sweet and sticky flavor and feel of maple syrup to your favorite mixture, or use it by yourself to create a unique vaping experience. Maple Syrup by FlavourArt

complements whiskey and tobacco flavors with surprising ease, and it also gives a rich aftertaste to creams, berries, some nuts, bananas, & bread flavors.

Marshmallow is a campfire classic with a soft and sweet flavor and subtle aftertaste. Vape Marshmallow by itself for its subtle sweetness, or mix with dessert, chocolate, citrus or fruit flavors in your unique eliquid recipe. If you're feeling really adventurous, try adding a dash of it to a rum or whiskey flavor to subtly reduce its bitterness.

Marzipan: is a sweet flavor with overtones of honey and subtle hints of almond. Vape Marzipan by FlavourArt by itself for its own unique flavor, or combine it with others in your own unique recipe. Marzipan complements chocolate, coffee, fruit and dessert flavors, and it is easily complemented by the addition of cinnamon or vanilla spice flavors.

Meringue: The light and sweet taste of meringue adds a dessert feel when vaped by itself. When combined with other flavors in your own unique eliquid recipe, Meringue complements marshmallow, cream, citrus, fruit, and floral flavors, especially if you add a bouquet of a sweet spice like vanilla or chocolate. Meringue can also be used to draw some bitterness away from taste of cola, or to adding a subtle sweet undertone to your favorite tobacco flavor.

Metaphor: If you love sweets but like a slightly sharp note to balance the taste, Metaphor is made for you. A light and crispy cream cake with vanilla and citrus fruits ... a genie in a bottle. We suggest using 2-3%

Nonna Cake: A true lovable Cake base... as good as only grandmothers can do! We suggest using 2-4%

Nut Mix tastes great on its own for its satisfying aftertaste and its unpredictable palate. Try adding nut mix to your favorite tobacco flavor, or combine it with spice, fruit, herbal, or floral flavors to develop your own exciting eliquid recipe.

Oba Oba: Rediscover your inner child with Oba Oba from FlavourArt. This familiar flavor has a light fruity taste, mixed with citrus, vanilla, and a gourmet taste. Some even think it tastes like Smarties candy and eggnog. Try some out and see for yourself!

Sour Wizard: A truly sour flavor additive. We suggest using 1-2%

Tiramisu: Sweet, light, and sharp, Tiramisu complements coffee, chocolate, fruit and florals, as well as some liquor flavors.

Torrone: Use the sweet and thick flavor of Torrone by itself, or in a unique recipe containing chocolate, nut, cream or coffee flavors. For the adventurous mixologist, combine Torrone with a sweet tobacco flavor to take advantage of its nougat undertones.

Up: A vibrant dessert of coffee, cream and cereals, but with a slightly alcoholic aftertaste (just the taste obviously.) UP, pure energy for your senses. We suggest using 2-3%

Vanilla Bourbon: With two classic flavors mixed perfectly in one dropper, Vanilla Bourbon by FlavourArt is great by itself, or in your favourite eliquid combination.

Vanilla Classic: Add the flavor of this classic sweet spice to your favorite eliquid recipe, or use it by itself for its delicious and smooth all day vape.

Vanilla Tahiti: Derived from a less sweet vanilla orchid than the classic flavor, use Vanilla Tahiti by itself or in your very own eliquid recipe.

Vienna Cream: Add the exotic flavor of Vienna Cream frosting to your favorite fruit, confection, or dessert flavors to bring out the taste in your unique recipe. Or, use this flavor by itself for its creamy and slightly meringue flavor.

Walnut: A classic nut flavor with subtle woody undertones, Walnut tastes equally great by itself or mixed in your own unique eliquid recipe with nuts, florals, confectionary, and fruit flavors. Many users find Walnut to be oddly compelling when combined with light or sweet tobacco flavors.

Whiskey: Vape the smoky bitter flavor of whiskey by itself, or combine it in your very own eliquid recipe. We recommend mixing Whiskey with oak, herb, coffee and cola flavors, or using just a drop of it to add some bitterness to your favorite tobacco flavor.

wOw: Tantalise your tastebuds with the unmistakable flavour of fried donut wrapped around a deliciously fruity red filling and... sugar topping! We suggest using 2-3%

Zeppola: A delicious Italian pastry — deep fried sweet doughnut (delicious on its own, or to which you can also add any fruit or cream or flavor filling of your choice!) We suggest using 2-3%

Yogurt: Newly revised to be safe for vaping! A wonderful blend of the creamy and tart notes of yogurt. Can be mixed with fruits, desserts, spices and whatever else your heart desires!

Herbal / Floral / Spice Flavours

Anise has a unique, bittersweet, licoricelike flavor. From its wonderful aroma to its natural sweetness, try it to strengthen other spice and herb flavors, or to add some bitterness to tobacco or cola eliquids.

Bergamot: Looking for a citrus flavor that screams luxury? With a little more bitterness than grapefruit and a little more sourness than lemon, Bergamot is the way to go! Add a touch of this uncommon yet satisfying flavor to your eliquid recipe to surprise your fruit loving friends. Want to spice it up even further? Try mixing Bergamot flavor with spice or citrus flavors.

Black Pepper: Want to "pepper" up your vaping experience? This is the flavor for you. Use it to energize your eliquid mix or just give your regular formula a little bit of kick. Try it with herbal, tobacco, or cola flavors.

Cardamon: The aromatic resinous fragrance of Cardamom is a very versatile flavor. Use it by itself for its own unique taste, or combine it with other eliquid flavors in your own unique recipe. Complements herbal, bread, tea, and tobacco flavors.

Ceylon Cinnamon: A truly unique cinnamon that complements both sweet and savoury applications. A must try! Not a candied flavour.

Glove: The traditional aroma of Christmas is now available for your eliquid spice rack. Vape Glove by itself to take advantage of its strong, sweet flavor. Or, mix it with chocolate, orange, and tobacco flavors. For a taste of authentic Mexican cuisine, try it with vanilla citrus or anise.

Jasmine: Bring the delightful floral aroma of Jasmine to your vaping experience. Use it by itself for a mild yet relaxing floral flavor, or combine it with other flavor to produce your own flower garden. We recommend green tea and floral scents to complement its bouquet.

Lavender: A staple aroma perfect for adding to your very own eliquid bouquet, this soft but lasting slightly sweet floral scent will complement dessert, floral, and some tobacco flavors.

Licorice: The sweet and unmistakable flavor of traditional black licorice is an essential component of any connoisseur's eliquid spice rack. Licorice adds some sweetness to darker and smokier tobacco flavors, and complements many other spices. Licorice adds a very unique aftertaste to cola, chocolate, and coffee flavors.

Oakwood: Add the mellow and earthy taste of oak to your favorite fruit, tobacco or liquor eliquid mix, or use just a smidgen to give your mix a subtle undertone.

Peppermint: Cool down your vaping experience with the rush of Peppermint. Peppermint adds a refreshing mint flavor on its own.

Rose: Bring the sumptuous aroma of rose to your eliquid recipe, or mix it with floral, herbal, or even tobacco flavors in your very own recipe! This classic scent will always smell sweet.

Spearmint: A slightly more obvious mint flavor than peppermint, use this flavor by itself to add a refreshing kick to your eliquid, or mix it with herbal, dessert, or tobacco flavors in your own recipe.

Violet complements floral and fruit flavors, or adds a subtle but enticing undertone to confections, creams, and desserts.

Ylang Ylang: This delicate and sweet scent of Ylang Ylang needs to be experienced to be understood. First, try it by itself for its calming and exotic all day vape. Once you get used to it, you'll see how well Ylang Ylang complements floral, fruit, and herbal flavors.

Zen Garden is an earthy non-tobacco flavor with subtle herbal and floral notes.

Tobacco Flavours

Tobacco (7 Leaves): 7 Leaves Tobacco by FlavourArt combines the best features of FlavourArt's seven most popular tobacco flavors to provide a unique tobacco experience with a slight wood taste, sub-dued undertones, and a hint of spice. 7 Leaves Tobacco contains aspects of FlavourArt's rich and subtle flavors "Firecured, Bright leaf, Burley, Shade, Perique, Latakia, and Oriental," making it the perfect choice for the tobacco connoisseur's eliquid recipe. Start with 2%, and then adjust to taste.

Black Fire Tobacco: If you're looking for an intense tobacco flavor to vape, FlavourArt's Black Fire Tobacco is the flavor for you. With its intense smoky character and mellow caramel undertones, Black Fire tobacco is reminiscent of summer fun, backyard barbecues and bonfire nights. This is a tobacco flavor that can really bring out the best in other tobacco flavors. Try it in your own formula. Start between 1% and 5%, then adjust to taste.

Burley Tobacco brings the flavor and fragrance of the Kentucky sun and breeze to your vaping. Rich and smooth, with delicate floral undertones, vape Burley Tobacco by itself, or in your own recipe containing floral or herbal flavors. Start by using 1%, and then adjust to taste.

Cam T Ultimate Tobacco is a luxurious tobacco blend with hints of spice, wood, and sweetness. Tastes great on its own, or mixed with spices, dark tobacco, and chocolate flavors. Start by using 2%.

Cigar Passion: Refined and elegant, Cigar Passion by FlavourArt has a faint taste of citrus with aromatic tones, reproducing the flavors that can be perceived from these world famous cigars. Cigar fans, rejoice! Now you can add the flavor of a Cuban cigar to your vaping without being harassed by customs! Suggested usage: 2-3%.

Cowboy Blend Tobacco: The taste of the open plains of last frontier, this is a light and dry tobacco flavor with a hint of sweetness and an ideal base for developing your own recipes, Cowboy Blend complements tobacco, citrus, and mint flavorings. Start by using 1%, and then adjust to taste.

Cuban Supreme Tobacco: With its strong cocoa overtones and smooth, smoky tobacco finish, Cuban Supreme Flavor gives you the taste and feel of those classic Cuban cigars, but without any of the hassle. Vape it by itself, or mix it with other tobacco flavors, chocolates, or your own blend of spices for a eliquid classic. Start at 1%, and then flavor to taste.

Dark Vapure Tobacco: Flavor is strong and dark, with a hint of cocoa. Use this flavor by itself, or combine it with other flavors to develop your own unique recipe. Tastes great to add strength to other tobacco flavors, or if you add hints of chocolate, cola, cherry, or vanilla to give it a sweeter undertone. Start by using 1%.

Desert Ship Tobacco is a smooth and flavorful Turkish blend. Use Desert Ship flavor by itself for its exotic bouquet, use it to spice up other tobacco flavors, or develop your own unique mix of flavors by adding some spice, herbal, or citrus flavors. Just imagine a ship in the desert, and choose some appropriate spices to accentuate this classic and popular flavor. Start by using 1%.

Dusk Tobacco, one of FlavourArt's newest editions, combines subtlety with sophistication. With a hint of licorice, fine tobacco, and wood, FlavourArt's Dusk tobacco provides a soft, delicate tobacco taste, and will effortlessly provide you with a smooth all day vape. First, try this flavor by itself in your eliquid recipe, and then enhance your experience when you combine it with other tobacco flavors, chocolates, coffee, mints, spices or a hint of citrus to customize the flavor. We recommend using it at 4%.

Latakia Tobacco: With its strong, smoky, and nottoosweet aroma, Latakia Tobacco provides a robust pipe tobacco flavor perfect for an all day vape. Use this Latakia Tobacco by itself, or mix it with other tobacco flavors, mints, or spices in your own unique eliquid blend. Start by using 1%, and then flavor to taste.

Layton Blend Tobacco combines the intensity of a strong tobacco flavor tempered with hints of fruit and mint. Vape this Layton Blend by itself for its classic all day flavor, or complement it with tobacco, mint or (tart) fruit flavors in your own recipe. This tobacco flavor is popular with electronic cigarette users worldwide because it is ideal for beginners and for mixers, so be sure to keep a ready supply on hand. Start with 2-3%, and then flavor to taste.

Maxx Blend Tobacco: Previously called MaxB Ultimate, Maxx Blend gives you the rich aroma of rolling tobacco with slight notes of spice. Because Maxx Blend is a mild flavor, it goes very well with other tobacco flavors, and can be complemented with hints of mint, spice, or floral flavors. This is a very popular flavor, and ought to be a staple selection for a tobacco connoisseur to develop a baseline flavor with one of the most accessible tobacco

flavors. Maxx Blend mimics the flavor of the very popular brand of American cigarettes that starts with the same letter. Start by using 1%, and then adjust to taste.

Mellow Tobacco provides a mild and gentle tobacco flavor with a slight earthy taste. Vape Mellow Tobacco by itself and adjust the strength to taste, or create your own unique recipe by mixing it with other tobacco flavors, or accentuating its mildness with hints of mint, fruit, citrus or spices. This is a great staple flavor and the ideal all day vape for lazy days out in the sun. Start by using 1%.

Oriental 4 Tobacco: A slightly bitter tobacco flavor blend with floral yet fruity notes, Oriental 4 (RY4) is a long time favorite with an Italian flair. Vape Oriental by itself, or blend it with your favorite tobacco flavors to mellow out the mixture. This is a perfect all day vape for those who want to stay mellow, but alert.

Ozone Tobacco: Add a little Ozone to your favorite eliquid recipe or use it alone for a unique tobacco blend with floral tones. A surprisingly versatile flavor, Ozone is sure to become a favorite and an uncommon addition to your tool box.

Perique Black Tobacco: One of the harshest tobacco flavors available, Perique Black Flavor by FlavourArt has hints of pepper and salsa. Start by using this flavor by itself, so you get used to it. After you do, start developing your own unique eliquid recipe. We recommend combining Perique Black with milder tobacco flavors, a small amount of mint or citrus flavor, or strong spices, depending on your palette. This is a tobacco flavor for the true connoisseur, but it can also be one of the most rewarding, if mixed correctly. Start at 1%, and adjust to taste.

Royal Tobacco: An ideal pick up and go flavor for an all day vape, Royal Tobacco provides a good balance of woody, crisp, and fresh tobacco flavors. Vape this Royal Tobacco by itself, or combine it with other tobacco, spice, or herbal flavors in your very own recipe. Start at 1 or 2%, and then adjust to taste.

RY4 is a longtime favorite in the vaper world. A tobacco flavor with a hint of caramel and vanilla. RY4 is a slightly sweet flavor that is perfect for an all day vape, and its sweetness also makes it a great base flavor for mixes, where it can be used to complement dark flavors like chocolate, coffee, cola, or even desserts! Start at 1 or 2%, and then adjust to taste.

Shade Tobacco is an elegant tobacco flavor with a hint of sweetness. Use it by itself for a slightly smoky all day vape, or complement its sweetness with fruit, citrus, or mint flavors in your own unique eliquid recipe.

SoHo: Tailored for those who desire more refined Italian flavour notes, SoHo is a rich, intense blend of tobacco and sweet. Recommended percentage 20%

Tuscan Reserve Tobacco: The "Tosceno" is the finest Italian cigar. This flavor, developed with the Toscano cigar as its target, offers a nice, smooth and delicate cigar flavor with a background hint of charcoal smokiness. Perfect for those who like a slightly dark flavor with a clean finish. Start at 1%.

Virginia Tobacco: A veritable masterpiece of flavor design, Virginia Tobacco is a delicate and sophisticated tobacco flavor, perfect for an all day vape. Combined with other tobacco flavors, Virginia Tobacco can mellow out the woodiness, or calm down the spiciness of other, stronger flavors. Lauded by tobacco enthusiasts worldwide, this flavor is essential to any flavor starter kit, and will probably stay with you as long as you vape. Start at 1% and adjust to taste.

E-motions Line

Storm: Relax in your favorite armchair and enjoy the subtle complexities of a delicious pipe tobacco. Recommended percentage 2-3%

Glorv: A bold, American style tobacco. Will quickly become your go-to in your toolbox. Recommended percentage 2-3%

Joy: Something different to add to your tobacco/dessert flavours. Slightly sweet, with hidden notes of chocolate and cereal. Recommended percentage 2-3%

Enhancers / Modifiers

Bitter Wizard: Balance your ecig juice! With Bitter Wizard, you can reduce, or even eliminate the basic sweet taste of PG or VG. As a vaper, adding a small amount of Bitter Wizard to your mix will give your eliquid a pleasantly bitter aftertaste, and it only becomes more effective as you increase the dosage. Bitter Wizard blends extremely well with dark and tobacco flavors. Give it a try, it's like magic! Start at 1%, and then adjust to taste.

Flash Throat Hit Enhancer: Flash is meant to mimic the hit of nicotine on your throat. Does what you expect when you vape this flavor by itself, but where it really shines is in giving the initial "kick" to a personalized vape recipe. Try it with dark flavors like chocolate, cloves, and coffee, sharp flavors like anise and licorice, or give it some extra subtlety by adding mint or citrus flavors to it. Start at 2%, and adjust to taste.

Magic Mask: Reduce the acid perception without modifying the pH (the measure of acidity) of your eliquid recipe. Magic Mask acts at the tongue receptor level, temporarily reducing the acid perception, and thus improving the overall mouth feel. Its action lasts 58 seconds and involves only the acid receptors. The tongue reacts very strongly to acidity, which helps bring out subtle flavors in many foods. Try it out, it's almost as if it's magic! Start with 1%, and then increase / decrease to taste.

Menthol Arctic: Cool down your flavors with the strong mint kick of Menthol Arctic.

Polar Blast: A flavour enhancer to impart the freezing chill of the Polar Icecaps into your liquid, Polar Blast will send a shiver down your spine whilst allowing your flavours to sparkle through with crystal clear brilliance. We suggest using 1-2% mixed with other flavors since it's taste is "as neutral as possible". Mint and Menthol free

Reggae Night by FlavourArt might well be the funniest flavor of all! It even delivers a slight blue color to your eliquid recipe (this is normal; it's part of its charm!). Due to its composition, this flavor must be SHAKEN WELL BEFORE USE. This indescribable flavor is a perfect all day vape for a lazy Sunday, or for the most laid back of house parties. Suggested dosage 1-2%.

MTS Vape Wizard: MTS stands for mellow, thick, and smooth, which is why this flavor adds body and depth to your existing eliquid creations. Be careful, though, because while Vape Wizard is an eliquid flavor enhancer, it does not have any flavor on its own. Use from 0.5% to 2%. A little goes a long way!
